

## cloudLibrary™ discoveryTerminal

gain new digital users with in-library kiosks

The cloudLibrary™ discoveryTerminal delivers your digital collection to users through accessible and inviting in-library kiosks. Recommended reads and similar titles are presented in a clear and unobtrusive way, allowing eBooks and eAudiobooks to be immediately added to the user's digital shelf. Initially designed for public libraries, the cloudLibrary™ discoveryTerminal also appeals to academic libraries that want to offer a digital leisure collection to their students without having to visit another library.

# benefits of cloudLibrary™ discoveryTerminal

## attract digital users from within your library

Introduce readers to your growing digital collection effortlessly by adding attractive physical touchpoints within your library. Increase circulation by exposing readers to digital content in a fresh and dynamic way.

## connect with users in a more meaningful way

cloudLibrary's intuitive browse, borrow and check-out process eliminates most technical questions library staff experience with other digital solutions and allows staff to focus on more meaningful user experiences at the library.

## grant users' access to digital titles immediately

With the cloudLibrary™ discoveryTerminal, users only need a library card to sign-up and immediately start browsing. Break down barriers to accessing your digital collection with this easy-to-use discovery kiosk.

## reinforce your library communications

Capture users' attention while you have it and drive attendance to your library's programs and services. With custom messages and social media integration at the cloudLibrary discoveryTerminal, reaching your users wherever they are is easier than ever before.

## discovery that matches your library brand

Simple customization tools allow you to upload your library logo inside the cloudLibrary discoveryTerminal software and app, ensuring users know they are browsing your library's digital collection.
