

## **bibliotheca RFID workstation™ mobile**

fast, portable conversion to RFID

As a component of the RFID System, this station provides a quick, easy solution for converting library materials to RFID technology. Featuring a touch-sensitive screen, optical barcode scanner and RFID reader, this self-contained station rapidly reads barcodes, converts the information and dispenses RFID Tags. The station doesn't require a connection to an automated circulation system, and because it's designed to be self-contained on a portable cart, it works right in the stacks. The sophisticated laser scanner can handle virtually every barcode location and orientation, and a visible scan line helps staff place items correctly.

### Fast/Easy to Use

- | Converts items to RFID quickly and easily
- | Lowers labour costs
- | Dispenses RFID tags automatically, one by one
- | Able to weed and convert your collection simultaneously

### Portable/Self-contained

- | Works right in the stacks
- | Speeds up the conversion process
- | Doesn't require a connection to an automated circulation system
- | Anti-tip feature

### Multiple Features

- | Touch-sensitive screen for easy configuration and operation
- | Features a barcode scanner and RFID reader
- | Converts tags with one simple system
- | System can program and reprogram tags

### Tag Data Manager

- | Freedom to move to ISO Tag Data Standard in the future
- | Empowers the RFID System to read country specific data formats (Danish, Dutch, Finnish and French)

## Specifications : bibliotheca RFID workstation™ mobile

<b>Dimensions</b>	18"d x 56.7"h x 30"w (460mm x 144mm x 760mm) Cart on wheels
<b>Energy Profile</b>	100/120 or 200/240 VAC 50-60 Hz 5.0/2.5 A
<b>Weight (Approximate)</b>	160 lbs (72.6 Kg)

UL Certified

Meets the EU  
WEEE and  
RoHS Directives
